BELLUCY TOP TIPS

- *bl* — Keep it Clean – Always remember that practicing good Hygiene and sanitation is vitally important to prevent Nail conditions and disorders from occurring.
- *bl* — Preparation is Everything – Thorough preparation and well manicured nails ensure;
 - Nails, hands and feet are meticulously manicured and groomed.
 - Allows the BELLUCY colour application to look flawless.
 - Prevents problems from occurring
- *bl* — Superior Adhesion – For superior adhesion remember to use Bellucy Bond a non-acid bonding agent that enhances retention between the natural nail and all BELLUCY nail coatings including the new additions to our range, "Builder Gel in a Bottle" & Sculpting Gel.
- *bl* — Mix it Up – Remember to gently roll and mix all BELLUCY gel polishes to combine the pigments and solvents and to prevent them from thickening over time, to prevent service breakdown and other issues from occurring.
- *bl* — Step it Up – Step it up and always use all BELLUCY products according to the step by step protocols set out for use, to achieve optimal results and to prevent service breakdown and provide service longevity.
